<sup>1</sup> the former design of this worksheet gave some students who entered in 2020 or 2021 the mistaken impression that one Tier 4 course would be sufficient as long as they fulfilled the credit requirement; for those students, the credit requirement will supersede the need for a second Tier 4 course with DGS approval.

<sup>2</sup> one course with a grade of less than B can count towards the credit requirement as a Tier 4 course.

<sup>3</sup> students entering the program with a Masters degree can apply the 3 point credit towards Tiers 2, 3, 4
